

Floating Fountains

Floating Fountains are a perfect plug-and-play solution for any pond. These floating fountains are easy to install and can be easily repositioned to change the appearance of your pond. The fountains not only look good, they also help with pond aeration and circulation. The integrated LED lights produce a beautiful display at night. Further adding to the enjoyment of your water feature.

	PJ-LR-96W	PJ-LR-96C RGB
